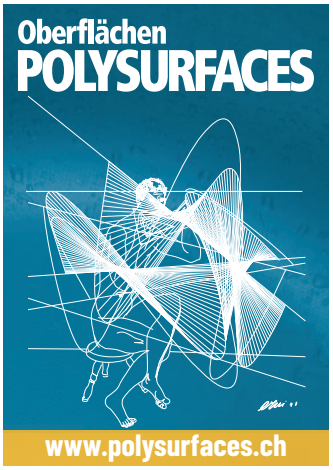
Oberflächen POLYSURFACES

Valid from 1.1.2021

MEDIA-KIT 2021



Characteristics

Oberflächen POLYSURFACES is the only Swiss journal in the field of surface treatment and is read by company managers, executives and purchasing managers in the sector. As an official organ of the Swiss Society for Surface Treatment (SST) and the Association of Suppliers for Surface Treatment (AFTS), this bilingual (German/French) periodical is also widely used for the job market. The readership covers classic and advanced surface technologies as well as the paint and varnish and materials technology industries.

The magazine offers an ideal editorial environment in the following fields: electroplating (galvanic) plants, chemicals, waste water treatment, pumps, filters, cleaning and degreasing, laboratory equipment, measuring instruments, sandblasting booths, plants for phosphatizing, polishing, recycling and waste disposal, paints and varnishes, drying, weighing and dosing, powdering electrostatic and corrosion protection.
